FBIS Administrative Staff Log Notes - 11 January 1968

1. Type A (fully cleared) contracts at foreign field bureaus. FBIS has no contract program in the foreign field which permits the hiring of U.S. citizens on contract nor can U.S. citizens be hired as local employees paid on the local scale. In 1964 a procedure was devised which enabled the [] to hire a dependent wife on contract as a WAE secretary, without blocking a Staff position. Instead of providing the Contract Personnel Division/OP with a slot number when the contract is forwarded for approval, we cover the contract with a statement to the effect that " [] will block a Non-Staff ceiling position." This does not actually block a Non-Staff position, it is merely a device to satisfy the Office of Personnel. [] cc: Contract Personnel File
